European Journal of Orthodontics

Volume 18 (1996) Subject entries

Acrylic resin
A clinical evaluation of a glass ionomer cement as an orthodontic bonding adhesive compared with an ... 373
Adhesives
An *in vitro* evaluation of the tensile and shear strengths of four ... used in orthodontics 319
Airway dimensions
... and head posture in obstructive sleep apnoea 571
Angle classes
Morphological associations between the ... 111
Apical base
A method of measuring the ... 479
Attachment bonding
... to impacted teeth at the time of surgical exposure 457
Autotransplantation
Orthodontic pre-treatment prior to ... of palatally impacted maxillary canines 449

Bimaxillary dental protrusion
An investigation of tooth size in Northern Irish people with ... 617
Biodegradable implants
... for orthodontic anchorage 465
Bone cells
A molecular mechanism of integrin regulation from ... stimulated by orthodontic forces 227
Bone formation
Stimulation of ... in the expanding mid-palatal suture by transforming growth factor-β1 in the rat 169
Cephalometric analysis
Assessment of an automated ... system 471
Cephalometric morphology
The ... of patients with obstructive sleep apnoea 557
Cerebral palsy
The prevalence of malocclusion in children with ... 637
Chondroectodermal dysplasia
... (Ellis-van Creveld syndrome) 313
Class II division 1 malocclusions
Significance of the cant of the posterior occlusal plane in ... 27
The use of tensor analysis to investigate facial changes in treated ... 41
Collagen
Growth and type-II ... expression in the glenoid fossa of the temporomandibular joint during altered loading 3
Craniofacial morphology
... in young patients with Turner syndrome 215
Craniofacial pattern
Floating norms for the assessment of ... in the deciduous dentition 359
Crown size dimensions
A comparison of ... of the permanent teeth in a Nigerian and a British population 623

Deciduous dentition
Floating norms for the assessment of craniofacial pattern in the ... 359
Direction of eruption
Late lower arch crowding in relation to the ... 341
Dummy-sucking
... behaviour in 3-year old Norwegian and Swedish children 205

Ellis-van Creveld syndrome
Chondroectodermal dysplasia (...) 313
Enamel
Comparative shear bond strength of some orthodontic bonding resins to ... 89
Enamel fluoride
... levels after orthodontic band cementation with glass ionomer cement 81
Enamel surface fractures
The extent of ... 655
Extraction therapy
Agenesis of mandibular second premolars. Spontaneous space closure after ... 589

Facial growth
Vertical ... and statural growth in girls 549
First molar
Moments and forces delivered by transpalatal arches for symmetrical ... rotation 131
The effect of a transpalatal arch for the correction of ... rotation 257
First molars
Continued eruption of maxillary incisors and ... in girls from 9 to 25 years 245
Fixed appliances
Perception of pain as a result of orthodontic treatment with ... 349
Force magnitude
... applied by orthodontists 69
Frankfort Horizontal
The reliability of the ... in roentgenographic cephalometry 367
Frontal sinus
Development of the ... in relation to somatic and skeletal maturity 491
Frontal-view asymmetry diagnosis
Combined effects of errors in ... 629

Glass ionomer cement
A clinical evaluation of a ... as an orthodontic bonding adhesive compared with an acrylic resin 373
An *in vitro* study of the bond strength of light-cured ... in the bonding of orthodontic brackets 199
Enamel fluoride levels after orthodontic band cementation with ... 81
Orthodontic bonding with ... 385
Glenoid fossa
Growth and type-II collagen

expression in the ... of the temporomandibular joint during altered loading 3
Growth change
Quantitative evaluation of correlation of skull morphology in families in an attempt to predict ... 181

Handicapped child
Orthodontics for the ... 55
Head posture
Airway dimensions and ... in obstructive sleep apnoea 571
Human fibroblasts
Effects of continuous and intermittent forces on ... *in vitro* 19
Hyaline zone
The ... and associated root surface changes in experimental orthodontics in rats 11

Impacted teeth
Attachment bonding to ... at the time of surgical exposure 457
Initial stress differences
... between tipping and torque movements 329
Integrin regulation
A molecular mechanism of ... from bone cells stimulated by orthodontic forces 227

Lingual distalizer
The ... system 445
Long bones
The influence of transforming growth factor β1 on the development of embryonic mouse ... 237
Lower arch crowding
Late ... in relation to the direction of eruption 341

Malocclusion
The prevalence of ... in children with cerebral palsy 637
Mandibular incisor
... extraction 485
Mandibular second premolars
Agenesis of ... . Spontaneous space closure after extraction therapy 589
Maxillary expansion
Treatment response to ... and protraction 151
Maxillary growth
The effects of food consistency on ... in rats 601
Maxillary incisors
Continued eruption of ... and first molars in girls from 9 to 25 years 245
Maxillary orthopaedic splint
Effects of a modified ... 269
Maxillary protraction
Treatment response to maxillary expansion and ... 151
Mid-palatal suture
Stimulation of bone formation in the expanding ... by transforming growth factor-β1 in the rat 169
Multiple aplasia
A multidisciplinary approach to oral rehabilitation with osseointegrated implants in children and adolescents with ... 119

Obstructive sleep apnoea
Airway dimensions and head posture in ... 571
The cephalometric morphology of patients with ... 557
Occlusal morphology
... in Turner syndrome 103
Oral rehabilitation
A multidisciplinary approach to ... with osseointegrated implants in children and adolescents with multiple aplasia 119
Orthodontic anchorage
Biodegradable implants for ... 465
Orthodontic band cementation
Enamel fluoride levels after ... with glass ionomer cement 81
Orthodontic bonding adhesive
A clinical evaluation of a glass ionomer cement as an ... compared with an acrylic resin 373
Orthodontic bonding resins
Comparative shear bond strength of some ... to enamel 89
Orthodontic brackets
An *in vitro* study of the bond strength of light-cured glass ionomer cement in the bonding of ... 199
Orthodontic extraction decisions
Consistency of ... 77
Orthodontic force
Effects of a doubled ... magnitude on tooth movement and root resorptions 141
The effects of a four-fold increased ... magnitude on tooth movement and root resorptions 287
Orthodontic forces
A molecular mechanism of integrin regulation from bone cells stimulated by ... 227
Orthodontic magnets
Tissue response to space closure in monkeys: a comparison of ... and superelastic springs 581
Orthodontic pre-treatment
... prior to autotransplantation of palatally impacted maxillary canines 449
Orthodontic root resorption
Healing of the root surface-associated periodontium: an immunohistochemical study of ... in man 435
Orthodontic treatment
Patterns and prediction of ... course 645
Perception of pain as a result of ... with fixed appliances 349
Osseointegrated implants
A multidisciplinary approach to oral rehabilitation with ... in children and adolescents with multiple aplasia 119

Pain
Perception of ... as a result of orthodontic treatment with fixed appliances 349
Palatally impacted maxillary canines
Orthodontic pre-treatment prior to autotransplantation of ... 449
Permanent teeth
A comparison of the crown size dimensions of ... in a Nigerian and a British population 623
Polycarbonate bracket
Shear bond strength of a new ... 295
Posterior occlusal plane
Significance of the cant of the ... in Class II division 1 malocclusions 27

Roentgenographic cephalometry
The reliability of the Frankfort Horizontal in ... 367
Root resorptions
Effects of a doubled orthodontic

force magnitude on tooth movement and ... 141
The effects of a four-fold increased orthodontic force magnitude on tooth movement and ... 287
Root surface
The hyaline zone and associated ... changes in experimental orthodontics in rats 11
Root surface-associated periodontium
Healing of the ... : an immunohistochemical study of orthodontic root resorption in man 435

Shear bond strength
... of a new polycarbonate bracket 295
Comparative ... of some orthodontic bonding resins to enamel 89
Skull morphology
Quantitative evaluation of correlation of ... in families in an attempt to predict growth change 181
Skull-holding device
A ... for experimental cephalometric research 193
Somatic and skeletal maturity
Development of the frontal sinus in relation to ... 491
Space closure
Agenesis of mandibular second premolars. Spontaneous ... after extraction therapy 589
Space closure in monkeys
Tissue response to ... : a comparison of orthodontic magnets and superelastic springs 581
Statural growth
Vertical facial growth and ... in girls 549
Superelastic springs
Tissue response to space closure in monkeys: a comparison of orthodontic magnets and ... 581

Temporomandibular joint
Growth and type-II collagen expression in the glenoid fossa of the ... during altered loading 3
Tensile and shear strengths
An *in vitro* evaluation of the ... of four adhesives used in orthodontics 319
Tensor analysis
The use of ... to investigate facial changes in treated Class II division 1 malocclusions 41
Tipping and torque movements
Initial stress differences between ... 329
Tooth movement
Effects of a doubled orthodontic force magnitude on ... and root resorptions 141
The effects of a four-fold increased orthodontic force magnitude on ... and root resorptions 287
Tooth size
An investigation of ... in Northern Irish people with bimaxillary dental protrusion 617
Transforming growth factor β1
The influence of ... on the development of embryonic mouse long bones 237
Transforming growth factor-β
Stimulation of bone formation in the expanding mid-palatal suture by ... in the rat 169
Transpalatal arch
The effect of a ... for the correction of first molar rotation 257
Transpalatal arches
Moments and forces delivered by ... for symmetrical first molar rotation 131
Turner syndrome
Craniofacial morphology in young patients with ... 215
Occlusal morphology in ... 103

Author entries

Akin-Nergiz, N., Nergiz, I., Behlfelt, K. and Platzer, U.
Shear bond strength of a new polycarbonate bracket—an *in vitro* study with 14 adhesives 295

Volume 18 (1996) Subject entries

Abstract section—page numbers are given first followed by the abstract number in parentheses.

Acid-etched enamel
Confocal laser scanning microscopy of ... 547(112)
Acupressure
... and nausea related to maxillary impressions 409(19)
Adhesives
Peal/shear bond strength evaluation of various orthodontic brackets and ... 429(75)
Aetiology-orientated syndromology
... based on development fields in craniofacial embryology 417(42)
Air-powder-polishing
... for prophylaxis in orthodontics—effects on enamel surfaces 524(49)
Allergic reaction
... to orthodontic adhesives and wires 514(22)
Amalgam
Orthodontic bonding to different types of ... 407(15)
Anterior crossbite
Characteristics of craniofacial morphology in cases with ... 534(77)
Anxiety
Pain and ... during orthodontic treatment 526(54)
Apoptosis
... during the development of mouse cranial sutures 540(92)
Arch perimeter
The overlap method: assessment of crowding without recording ... 508 (8)
Ascending ramus
Position of the lateral segments of the ... in sagittal osteotomy 525(51)
Attractive magnets
... for orthodontic extrusion of crown-root fractured teeth 406(12)
Autotransplantation
... of palatally impacted maxillary canines 421(52)

Bass therapy
Tooth movements in the mandible during ... 422(53)
BCLP patients
The Hannover interdisciplinary treatment for ... 531(67)
Bending art system
Bending and torquing accuracy of the ... 518(34)
Binder's syndrome
Refining the midface ratio for estimating prognathism in ... 411(25)
Bite force
Relationship between ... and facial asymmetry in UCLP 533(74)
Bonding agent
Evaluation of a chemically cured glass ionomer as a ... 527(58)
Bone resorbing factors
... : effect on orthodontically induced periodontal remodelling 517(31)
Bone sialoprotein
Gene expression of ... and collagen during tooth movement 515(26)
Bracket systems
Demineralization associated with precoated and conventional ... 533(72)
Brackets
Shear bond strengths of ... bonded with light-cured glass ionomers 543(101)
Buccal mucosa
Long-term effects of orthodontic magnets on human ... 406(13)

Caries incidence
... and *Streptococcus mutans* occurrence in orthodontic patients 537(85)
Cariostatic ability
... of resin-modified glass ionomer cements for orthodontic bonding 513(21)
Cartilage
... production *in vitro* 543 (100)
Cartilaginous proteoglycans
Importance of ... for mandibular condylar growth processes 424(59)
Case complexity index
A simple ... 507(4)
Cephalometric superimpositioning
... on the foramen magnum 545(107)
Ceramic brackets
Shear bond strengths of ... bonded with light-cured glass ionomers 512(17)
Cervical spine
... abnormalities in syndromic craniosynostosis 402(3)
Cervical vertebral dimensions
Assessment of ... in skeletal maturation 518(33)
Chemically cured glass ionomer
Evaluation of a ... as a bonding agent 527(58)
Chewing pattern
... analysis in young dysgnathic patients 546(108)
Chewing type nipples
Improving oral development with the Hotz plate and ... 529(62)
Chin-cup therapy
... in skeletal Class III patients 513(20)
Class II division 1 malocclusions
Transverse interarch discrepancy in early ... 403(5)
Condylar unloading and growth of the mandible in subjects with ... 405(11)
Dentoskeletal morphology of ... and Class II division 2 malocclusions 536(82)
Vertical changes in treated and untreated subjects with ... 425(62)
Class II division 2 malocclusions
A long-term evaluation of treated ... 408(18)
Dentoskeletal morphology of Class II division 1 and ... 536(82)

Class II malocclusions
Treatment effect of the functional Hansa appliance in ... 546(109)
Class III
Shape-coordinate study of skeletal changes in treated ... children 412(26)
Class III bimaxillary surgery
Soft-tissues changes resulting from ... 532(70)
Class III malocclusions
Condylar position in orthopaedic treatment of ... 531(68)
Facemask treatment for skeletal ... in children 525(52)
Class III patients
Chin-cup therapy in skeletal ... 513(20)
Class III subjects
Postpubertal facial growth in ... 519(35)
Cleft lip and palate
Confocal laser scanning microscopy (CLSM) of teeth in ... patients 508(6)
Early detection of surgical outcome in ... subjects 403(4)
European union ... programme 426(63)
Incidence of ... in Flanders (Belgium) 516(28)
Multi-centre psychological outcomes for patients with ... 427(67)
The shape of the mandible in operated ... patients 514(24)
Cleft lip and/or palate
... children in Western Ireland 533(73)
Cleft patients
Secondary alveolar bone grafting in younger versus older ... 526(55)
Collagen
Gene expression of bone sialoprotein and ... during tooth movement 515(26)
Combined headgear
Effects of different vectors of force applied by ... on skeletal and dentoalveolar structures 545(105)
Condylar cartilage
Electrical masseter muscle stimulation maintains ... in organ culture 539(89)
Condyiar position
... in orthopaedic treatment of Class III malocclusion 531(68)
Condylar unloading

Electrical masseter muscle stimulation maintains condylar cartilage in organ culture 539(89)
Pirttiniemi, P. see Kantomaa, T.; Poikela, A.
Pizzoni, L. see Fano, V.
Plato, G. see Kopp, S.
Poikela, A., Kantomaa, T. and Pirttiniemi, P.
Recovery of craniofacial growth after a period of unilateral masticatory function 539(90)
Proietti, D. see Malagola, C.

Qvarnström, M. J. see Pahkala, R. H.

Ragazzoni, E. see Pirelli, P.
Rajić, S. see Lapter, M.
Ravara, M. see Ceretti, G.
Redmo, A. see Bernhold, M.
Reed, R. T. see Pearson, M. H.
Reukers, H. A. J. and Kuijpers-Jagtman, A. M.
Effectiveness of orthodontic treatment: a prospective clinical trial 424(58)
Rhys, C. and Mars, M.
A cephalometric analysis of Sri Lankan subjects with unoperated isolated cleft palate (ICP) 539(91)
Rice, D. P. C., Kim, H. J. and Thesleff, I.
Apoptosis during the development of mouse cranial sutures 540(92)
Richmond, S. and Klufas, M.
A non-invasive method of assessing incisor inclination 540(93)
Robinson, S. N. see Pearson, M. H.
Rossi, M. and Martina, R.
Integrin expression and cytokine modulation in periodontal ligament fibroblasts 540(94)
Roth, S., Müller, K. and Dannhauer, K.-H.
Importance of cartilaginous proteoglycans for mandibular condylar growth processes 424(59)
Ruf, S. and Pancherz, H.
Magnet resonance imaging and manual functional analysis findings in the TMJ after Herbst treatment 425(60)
Ruf, S. see Betzenberger, D.; Hansen, K.
Rumsey, N. see Turner, S. R.
Ryan, A. see Battagel, J. M.
Ryan, D. V. and McDonald, F.
The changes following orthognathic surgery: an assessment of three occlusal indices 541(95)
Rygh, P. see Farrell, L.

Sakamoto, T. see Sekine, M.
Sakashita, R. see Kuwahara, M.
Sakuda, M. see Okada, T.

Sandham, J. A. see Dowling, P. A.; Kearns, H. P. O.
Sandy, J. see McNamara, C.
Sandy, J. R. see Turner, S. R.
Saraç, M. see Cura, N.
Satoh, K. see Nakagawa, K.
Scheuer, H. and Höltje, W.-J.
Early decision for orthognathic surgery in unilateral CLP patients 541(96)
Scheuer, H. see Ibe, D.
Scholle, H. Ch., Anders, Ch., Schumann, N. P. and Kopp, S.
Selective activation of muscle and functional aspects 541(97)
Scholle, H. Ch. see Schumann, N. P.
Schumann, N. P., Scholle, H. Ch., Michael, T., Alexiev, W., Anders, Ch. and Kopp, S.
Topography of spectral EMG characteristics of temporalis and masseter muscles during mandibular movements 542(98)
Schumann, N. P. see Scholle, H. Ch.
Schwarzer, C. L., Kerscher, A. and Bumann, A.
Orthodontic root resorption and traumatisation of the inferior alveolar nerve after orthognathic surgery 425(61)
Schwarzer, C. L. see Bumann, A.
Segner, D. see Ibe, D.

Sekine, M., Nojima, K., Sakamoto, T., Watanabe, K., Kida, K., Yatabe, K., Kaji, H., Harazaki, M. and Isshiki, Y.
An orthodontic study of temporomandibular degenerative joint disease 542(99)
Sergl, H. G. see Doll, G. M.; Zentner, A.
Sharp, C. and Harkness, M.
Vertical changes in treated and untreated subjects with Class II division 1 malocclusions 425(62)
Shaw, W. C.
European Union cleft lip and palate programme 426(63)
Shimokawa, H. see Domon, S.
Sims, M. R.
Orthodontic tooth movement and the role of the microvascular bed of the periodontal ligament 426(64)
Skindhøj, B. see Huggare, J.
Soma, K. see Domon, S.
Sommerlad, B. see Hay, N. J.
Sorihashi, Y. see Takada, K.
Spyropoulos, M. see Bitsanis, F.
Stelte, V. see Zentner, A.
Stephens, C. D. see Takada, K.
Stephenson, P. A. and Kardos, T. B.
Cartilage production *in vitro* 543 (100)
Svedström-Oristo, A.-L., Pietilä, T., Pietilä, I., Alanen, P. and Varrela, J.
The suitability of NOTI and IOTN in the evaluation of an acceptable occlusion at the age of 18 years 544(102)
Svedström-Oristo, A. L. see Pietilä, T.
Süßenberger, U., Cacciafesta, V. and Jost-Brinkmann, P. G.
Shear bond strengths of brackets bonded with light-cured glass ionomers 543(101)
Süßenberger, U. see Cacciafesta, V.

Takada, K., Sorihashi, Y., Itoh, S. and Stephens, C. D.
Visually judged jaw relationships as a regression of cephalometric variables 426(65)
Takada, K. see Hidaka, O.; Kitai, N.; Nakagawa, K.
Takano-Yamamoto, T. see Kambara, F.; Okada, T.
